SUMMARY

Computer Science undergraduate with strong foundations in Data Structures & Algorithms and full-stack development. Passionate about building scalable, high-performance applications and solving complex technical challenges. Experienced in hackathons and collaborative projects, with a focus on creating secure, reliable, and impactful software solutions that deliver real-world value.

SKILLS

Programming Languages: C, C++, Python, JavaScript, TypeScript, Java

Web Development: HTML, CSS, React.js, Node.js, Express.js, MongoDB, Next.js, FastAPI

Tools & Platforms: Docker, Git, GitHub, Vercel, Render, VS Code, Postman, Canva, MS Office, Premiere Pro

CS Fundamentals: Object-Oriented Programming, Data Structures & Algorithms, DBMS, Computer Networks

Soft Skills: Communication, Problem Solving, Adaptability

Data Analytics: NumPy, Pandas, Matplotlib, Seaborn, MS Excel, Power BI, SQL, Data Visualization

WORK EXPERIENCE

WAISL Limited

10-June-2026 to 10-Aug-2026

SDE Intern

- Architected a full-stack AI-powered **Purchase Order (PO) Extractor** using React, FastAPI, Gemini 3.1 Flash, SQLAlchemy, and PyMuPDF, implementing a hybrid **LLM orchestration pipeline** for high-accuracy structured PDF data extraction.
- Designed **end-to-end data analytics** and machine learning pipelines, integrating **EDA, NLP**, feature engineering, model benchmarking, and data visualization to solve real-world predictive analytics problems.

Esecurity Innovations Labs LLP

7-Apr-2026 to 7-June-2026

SDE Intern

- Designed and developed a production-grade AI platform enabling conversational assistance, **interview automation**, personalized recommendations, and **secure career management** through a modular architecture.
- Engineered **fault-tolerant backend services** with React, Node.js, Express.js, MongoDB, Socket.io, Gemini 2.5 Flash, JWT, and OAuth 2.0, incorporating caching, secure middleware, and real-time event processing.

Dr. Reddy's Foundation

16-May-2024 to 12-July-2024

Trainee

- Enhanced **employability and customer service skills** through practical training.

PROJECTS

Pause-Distraction

- Built a Chrome extension (**Manifest V3**) that tracks time spent on distracting websites, enforces user defined limits, and redirects to a motivational "Time's Up" page.
- Implemented smart time-tracking, local storage privacy, configurable **domain blocking**, and lightweight alarms for efficient performance.

ChatZ (A Real-time Chat Web)

- Designed ChatZ's architecture using RESTful APIs and WebSockets, enabling seamless real time messaging used by 30+ employees across departments.
- Built using **Node.js, Express, MongoDB, WebSockets, and Stream Chat API** for real-time communication, with a responsive frontend using **React** and Tailwind CSS, gaining hands-on experience in full-stack development and REST APIs.

ACHIEVEMENTS

- Participated in **8+ offline hackathons** focused on building valuable projects with my team.
- Top-10 in 3 hackathons** (400+ teams), delivering UI, backend, **deployment under strict deadlines**.

EDUCATION

Guru Gobind Singh Indraprastha University - GTB4CEC

(2024-2028)

Bachelor of Technology (Computer Science and Engineering)

Current CGPA- **8.62/10**
